

2nd Grade Weekly Newsletter

June 10 - June 14

Math

- Reviewing skills with the daily theme

Math Tip: Math Workbook

Your child's math workbook for the second half of the year is in the Friday Folder. There isn't time to complete all of the problems for each lesson, so this would be a GREAT resource for extra practice over the summer. With that being said - don't throw it away.

What is Happening

- Our Color Poems are finished and up in the hallway for the last full week of school. The students are very proud of them. I will send them home the last week of school.
- We "dissected" a lima bean on Thursday. We learned the main parts of a seed are the seed coat, food, and the tiny embryo plant. We were able to see the very tiny leaf and root.
- Some of the students that signed up for the Preventing Summer Slide Work have been asking when they will receive their work. I assured them that I am working on it. Writing and Math are copied. I am still working on reading. I like to individualize the reading for each student. Summer Slide work will go home on June 17th.
- Please check around your house for Lewiston School Lending Library books. They have a white label on the front of the book. Many lending library books are missing.

Reading

- **Read Alouds**
 - Reviewing skills with books related to our daily theme.

Literacy Tip: Daily 20 minutes of reading

I am not sending home reading homework this week. However, it is VERY important that your child read EVERY day for 20 minutes. We have worked so hard to be where we need to be in reading. Not reading over the summer will result in a regression of skills.

ELA

Writing:

Your child's Expertise Final (Informational Writing) is in the Friday Folder. The 1st draft came home last week.
