Readiness standards, we are asking that you and your child please review the information below, sign it and return to Johannesburg-Lewiston Area Schools. If you choose to not give your child permission to use the above technological tools an alternative assignment will be created. Additionally, if your expectations change we must have it in writing and given to the office.

Device Usage

Section 1

Johannesburg-Lewiston Area School's 1:1 Chromebook program is designed to provide equipment and resources that meet the needs of today's students.

The Michigan Educational Technology Standards for Students (METS-S) are aligned with the International Society for Technology in Education's (ISTE) National Educational Technology Standards for Students (NETS-S) and the Framework for 21st Century Learning. The Michigan standards are intended to provide educators with a specific set of learning expectations that can be used to drive educational technology literacy assessments.

These standards are best delivered by authentic instruction and assessment with direct curricular ties and it is intended that these Standards will be integrated into all content areas. The preparation of our students to be successful in the 21st Century is the responsibility of all educators.

Additionally, this program provides access to digital content both at home and at school whenever needed. More specific uses will be determined and communicated by classroom teachers.

Technology Resources are any type of instrument, device, machine, equipment, technology, or software that is capable of transmitting, acquiring, or intercepting any telephone, electronic, data, Internet, audio, video, or radio transmissions, signals, telecommunications, or services, and include without limitation (1) internal and external network infrastructure, (2) Internet and network access, (3) computers, (4) servers, (5) storage devices, (6) peripherals, (7) software, and (8) messaging or communication systems.

In exchange for the use of the school's Technology Resources either at school or away from school, you understand and agree to the following:

A. Your use of the school's Technology Resources is a privilege that may be revoked by the school at any time and for any reason.

B. You have no expectation of privacy when using the school's Technology Resources. The school reserves the right to monitor and inspect all use of its Technology Resources, including, without limitation, personal e-mail and voice-mail communications, computer files, databases, web logs, audit trails, or any other electronic transmissions accessed, distributed, or used through the Technology Resources. J. The school does not guarantee that measures described in paragraphs H and I will provide any level of safety or security or that they will successfully block all inappropriate material from the school's students. You agree that you will not intentionally engage in any behavior that was intended to be prevented by paragraphs H and I.

K. The school does not warrant or guarantee that its Technology Resources will meet any specific requirement, or that they will be error free or uninterrupted; nor will the school be liable for any damages (including lost data, information, or time) sustained or incurred in connection with the use, operation, or inability to use the Technology Resources.

L. You have been provided temporary access to the Technology Resources to facilitate learning during the COVID-19 pandemic. You will return all Technology Resources to the school in good working order immediately on request.

I agree to follow this Agreement and all rules and regulations that may be added from time to time by the school or its Internet Service Provider. I also agree to follow all rules in the applicable student code of conduct and handbook. As a condition of using the Technology Resources, I agree to release the school and its board members, agents, and employees, including its Internet Service Provider, from all liability related to my use or inability to use the Technology Resources.

I understand that data I send or receive over the Technology Resources is not private. I consent to having the school monitor and inspect my use of the Technology Resources, including any electronic communications that I send or receive through the Technology Resources.
